ORAL AIRWAYS

A variety of latex free airways, which can be color-coded for easy identification. Size available range from 40mm - 120mm. All airways include a design and rigid bite block that are certain to keep the victim's airway from collapsing and ensure unobstructed ventilation. Airways are offered individually or as full kits with a plastic bag or case.

Berman Oral Airways	0.42EA	20.35 (50/BX)
Berman Oral Airways Kit	3.25 BAG / 11.79 CASE	
Colored Berman Airways	0.35 EA	1.70 (5) - 1.96(6) - 2.65(8)
Nuzone Oral Airways	4.35 EA	
Guedel Oral Airways	0.72 EA / 11.95 KIT	34.95 (50/BX)
Colored Guedel Oral Airways	1.09 EA / 14.50 KIT	52.85 (50/BX)
Cath-Guide Airways	1.35 EA / 37.95 KIT	62.85 (48/BX)

NASAL AIRWAYS

A variety of latex free airways. Made of soft material to provide maximum patient comfort while preventing damage to the nasal passage. Sizes available range from 4.0mm - 12.0mm. Airways are offered individually or in kits complete with lubricating jelly.

Ultra Robertazzi Nasal Airways-Rusch	3.35 EA / 16.85 KIT	32.49 (10/BX)
Adjustable Flange Nasal Airways-Rusch	7.29 EA / 34.95 KIT	70.69 (10/BX)
Robertazzi Style Nasal Airways-Sunmed	3.69 EA / 23.95 KIT	35.89 (10/BX)
Adjustable Flange Nasal Airways-Sunmed	6.49 EA / 26.95 KIT	62.85 (10/BX)
Soft Plastic Nasal Airways-Rusch	3.35 EA / 14.95 KIT	32.50 (10/BX)
Nasopharyngeal Airways-Curaplex	2.15 EA / 21.95 KIT	20.85 (10/BX)
Robertazzi Nasopharyngeal Airways-Curaplex	1.95 EA	18.90 (10/BX)

DIFFICULT, KING, DOUBLE-LUMEN & S.A.L.T. AIRWAYS

Offering air management tools that allow for maximum versatility during acute respiratory distress with upper airway obstruction. Multi-Channel designs allow for ventilation as well as simultaneous insertion of a gastric tube. Products are offered individually or as part of a complete kit. All sizes available.

Emer. Field Cricothyrotomy Kit	28.95 EA	
KING-LT-D (Disposable)	42.50 For Sizes 2 & 2.5	40.55 For Sizes 3,4,& 5

CO2 INDICATORS & DETECTORS

Simple and convenient products to ensure that your patient has been intubated safely. Visual indicators respond to exhaled CO2 to verify proper Endotracheal tube placement. Adult and pediatric models are available.

EasyCap II	13.15EA	306.10 (24/CS)
PediCap II	13.15EA	306.10 (24/CS)
FENEM CO2 Indicator (30mm I.D.)	20.15 EA	
FENEM CO2 Indicator (19-22mm I.D.)	20.15 EA	
Ambu CO2 Detector (Adult)	12.95 EA	150.75 (12/CS)
Ambu CO2 Detector (Pediatric)	12.95 EA	150.75 (12/CS)
STAT-Check II CO2 Indicator Unit	10.10 EA	

ESOPHAGEAL INTUBATION DETECTORS

"Syringe" and "Bulb" Style detectors that verify proper Endotracheal tube placement by using the anatomical differences between the trachea and the esophagus. Both detectors are disposable and latex free.

Syringe Model Detector

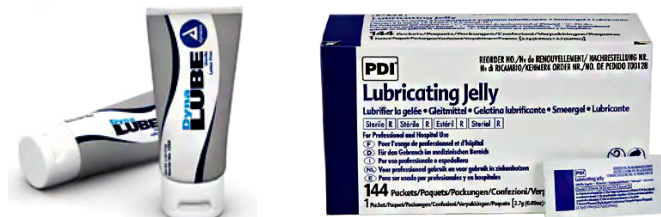

Bulb Style Detector

Syringe Model Type "A" Style	6.25 EA	120.85 (20/BX)
Bulb Model Type "B" Style	5.29 EA	102.69 (20/BX)

LUBRICATING JELLY

Lubricating Jelly is intended for medical purposes to lubricate body orifices and facilitate entry of diagnostic or therapeutic devices.

DynaLube Lubricating Jelly

Lubricating Jelly Foil Packets

DynaLube Lubricating Jelly (2.7 GM)	10.45 (144/BX)	121.59 (12/CS)
DynaLube Lubricating Jelly (5 GM)	10.45 (144/BX)	121.59 (12/CS)

ENDOTRACHEAL TUBES (CURAPLEX)

Available with cuffed or non-cuffed ends, these tubes may be used for both oral and nasal intubations. They feature a close fitting, low pressure cuff for easier intubation, as well as an opaque cuff for ease in visualization.

Uncuffed: Sizes available range from 2.0mm - 6.0mm
Cuffed: Sizes available range from 3.0mm - 10.0mm

E.T. Tube (Uncuffed)	1.65 EA	15.99 (10/BX)
E.T. Tube (Cuffed)	1.95 EA	18.90 (10/BX)

ENDOTRACHEAL TUBES w/ STYLETTE

ET tube with FlexiSlip stylette features a soft distal tip end and construction that provides optimal rigidity for quick entry. Prepackaged sterile and individually for convenience. Smooth, gentle, and opaque cupped tip to minimize trauma and allow easy visualization.

Uncuffed: Sizes available range from 2.5mm - 5.0mm
Cuffed: Sizes available range from 2.5mm - 10.0mm

E.T. Tube(w/Stylette) (Uncuffed)	2.69 EA	26.09 (10/BX)
E.T. Tube(w/Stylette) (Cuffed)	2.79 EA	27.05 (10/BX)

SLICK SETS

Prepackaged ET tube with Slick stylette features SureLoc stop to aid in keeping the stylette sized while inserting the ET tube. Easy to view, bold depth marks. Features a black positioning ring for safety and a close fitting, low pressure cuff for easier intubation.

Uncuffed: Sizes available range from 2.0mm - 5.5mm
Cuffed: Sizes available range from 5.0mm - 10.0mm

Slick Sets (Uncuffed)	4.59 EA	44.29 (10/BX)
Slick Sets (Cuffed)	6.79 EA	65.95 (10/BX)

ENDOTROL ENDOTRACHEAL TUBES

Provides directional control of the tip for emergency situations and abnormal intubation pathways. With a simple pull on the controlling ring, the distal tip responds by moving up and down for perfect nasal intubations. Packaged Sterile.

**Sizes available include: 6.0, 7.0, 8.0, 9.0mm

Endotrol E.T. Tube	11.79 EA	114.35 (10/BX)
--------------------	----------	----------------

E.T. TUBE STYLETTES

Provides optimal rigidity, pre-adjusted configurations, and stopping mechanisms for safe and smooth E.T. tube entry. This also allows for easy insertion and withdrawal. Our lighted Stylettes assist in the visualization required for the proper placement of E.T. tubes by displaying a bright glow in the midline when laryngeal prominence is seen. Adult, Child, and Pediatric sizes are available.

Flexi-Slip Stylette	3.15 EA	60.79 (20/BX)
Slick Stylette	4.25 EA	105.35 (25/BX)
Satin-Slip Intubating Stylette	3.85 EA	74.69 (20/BX)
Surch-Lite (w/ Adapter)	41.20 EA	

E.T. TUBES BOUGIE STYLETTES

Disposable & Reusable E.T. Tube Introducers. Calibrated to ensure accuracy. All products are latex free. Various tip styles, including: Coude, Straight, and Pediatric Coude.

Sizes Avail: (15FR x 70cm), (15FR x 60cm) (10FR x 70cm)

Single Use Bougie	13.15 EA	
E.T. Tube Introducer (Reuse)	118.85 EA	
E.T. Tube Introducer (Disp.)	7.69 EA	74.39 (10/BX)
"Bougie To Go" Introducer	10.25 EA	99.45 (10/BX)

ENDOTRACHEAL TUBE HOLDERS

Our selection of E.T. tube holders center the E.T. tube in place quickly and securely. Bite Block is available to assist airway patency. "Ambu" model features: foam padded backing and a quick connect "Ratchet System" for easy one-hand application. "Ambu" model also offers rubber or soft Velcro straps.

E.T. Tube Holder (Precision Med)	3.79 EA	36.75 (10/BX)
E.T. Tube Holder (Ambu) (Rub.)	4.10 EA	79.59 (20/CS)
E.T. Tube Holder (Ambu) (Vel.)	4.10 EA	79.59 (20/CS)

THOMAS & THOMAS SELECT ENDOTRACHEAL TUBE HOLDERS

Never worry about tape fastening again! The Thomas E.T. Tube Holder is the only tube holder with a quick-set screw for a secure hold after tube placement. This holder will accommodate Combitubes® and LMAs. It also utilizes a special bite block feature to protect the patient as well as the tube.

The Thomas Select Tube Holder features a large opening combined with a push-screw mechanism specifically designed to secure a wide range of advanced airways, enabling you to spend less time securing the airway device.

Thomas E.T. Tube Holder (Adult) (Blue)	4.45 EA	431.65 (100/CS)
Thomas E.T. Tube Holder (Pediatric) (Pink)	4.45 EA	431.65 (100/CS)
Thomas SELECT E.T. Tube Holder (Yellow)	4.95 EA	120.05 (25/CS)

LARYNGEAL MASKS AIRWAY

Curaplex laryngeal masks airway are designed as an alternative to traditional, endotracheal intubation. This device can be inserted with one hand and without a laryngoscope. Sizes available include: Neonate, Infant, Child, Adult, & Large Adult. Latex Free.

Laryngeal Masks Airway (Curaplex) (All Sizes)

8.75 EA

I-GEL O2 RESUS PACKS

These packs contain an I-GEL-O2, with an easily removable inner tray, containing a sachet of lubricant, an airway support strap, and suction tube, all packaged in a specially designed clear, sterile, rigid pack. This design ensures protection of the contents in transit and storage. This product also has a color coded hook ring to allow quick and easy identification of size. It is available in 3 adult sizes (Sm., Med., & Lg.)

I-GEL O2 Resus Pack (Curaplex)(Includes: Lube, Strap, & Parts) (All Sizes)

32.79 EA

I-GEL SUPRAGLOTTIC AIRWAYS

Designed to create a non-inflatable, anatomical seal of the pharyngeal, laryngeal, and perilaryngeal structures while avoiding compression trauma. Designed for use in securing and maintaining a patient airway in routine and emergency anesthetics for operations of fasted patients during spontaneous or intermittent positive pressure ventilation. Available in 3 Adult Sizes (Sm., Med., & Lg.) and 4 Pediatric Sizes (Neonates, Infants, Sm., & Lg.)

I-GEL Supraglottic Airway (All Pediatric Sizes)

Meconium Aspirator

Bulb Syringes

Many additional suction disposables available. These items include: The Hi-D Big Stick; which has a curved design for accurate and steady placement. The Meconium Aspirator; for eliminating mouth suctioning of Meconium from infants. We have a variety of Bulb Syringes to choose from, Sump & Naso-Gastric Tubes for drainage, as well as solidifiers for collected fluids to ensure that your agency meets standard regulations for handling of waste.
