B2 PIONEER TURNOUT GEAR WITH LAZERMAX

The B2™ Turnout Gear is based upon the most popular Battalion-style series and features a 32" coat with an advanced 3 body panel with a new pleated back and high-back pants designed to give the wearer extreme freedom of movement. The new Black-Ops™ Suspender System, exclusive to Lakeland Fire, provides a high degree of comfort, eliminating the fatigue that comes with long wear. Rugged construction means maximum durability and a long garment life. A long list of standard features rivals what other manufacturers call custom gear. Available in the OSX®, SCX, and MTS ordering programs, you will get the most bang for your buck any way you choose to order the B2!

COAT FEATURES:

The khaki colored B2 coat is constructed out of the new outer shell from TenCate called PIONEER. This B2 coat features the new 3M Segmented Triple Trim which is a major leap forward in reflective trim. Segmented to provide enhanced flexibility and air transmission, the new 3M trim is a perfect match to the ergonomics built into the light weight B2 Turnout Gear. Combined with our LazerMax* trim, the visibility of the firefighter at day or night, has never been greater.

Coat Features: Military Shoulder Pleats on Back, Zipper/Velcro® Closure, "Easy Grip" Drag Rescue Device -Unique Lakeland design, 4" Nomex® Wristers, Black Arashield® Cuff Reinforcements – Double Stitched, 2" x 8" x 8" Expansion /Handwarmer Pockets lined with Kevlar Twill, 7" x 9" Nomex® Liner Pocket, Liner Inspection Opening, Hanger Loop on collar, 2" x 3.5" x 8" Radio Pocket on left chest, Self-Material Mic Strap above Radio Pocket, Flashlight holder, LazerMax Trim, 3M Segmented Trim.

PANT FEATURES:

The khaki colored B2 Pants are constructed out of the new outer shell from TenCate called PIONEER. This B2 pant features the new 3M Segmented Triple Trim which is a major leap forward in reflective trim. Segmented to provide enhanced flexibility and air transmission, the new 3M trim is a perfect match to the ergonomics built into the light weight B2 Turnout Gear. Combined with our LazerMax* trim, the visibility of the firefighter at day or night, has never been greater.

Pant Features: Horizontal Knee Expansion Pleats, 3M Segmented Trim, Velcro®/Hook & Dee/Snap Fastener Fly Closure, Nomex® Twill Take-Up Straps, 2" x 10" x 10" Expansion Pockets lined with Kevlar Twill, Black Arashield® Knee reinforcements, Double layer padded knees, Black Arashield Cuff Reinforcements – Double Stitched, Liner Inspection, Opening, Rear Boot-Cut Cuffs, New Black-Ops™ Multi-Adjust Suspender System, LazerMax Trim.

BOOTS & FOOTWEAR

HAIX FOOTWEAR

FEATURES OF HAIX FOOTWEAR INCLUDE:

HAIX Secura Liner: Footwear inner liner which will never pull out or wrinkle up over time; lining is firmly secured and sealed along with the upper leather beneath the sole.

HAIX Sun Reflect Leather: Reduces the heating effect of the upper leather. Sunlight is reflected by the leather, keeping the leather and the feet cooler.

HAIX Climate System: Permits air circulation with every step. Moist air is released and fresh air comes in through the vent holes at the top of the boot.

HAIX MSL System: Micro Soft Light: PU foam injected throughout the sole for greater shock absorption and cold/ heat insulation; extremely low weight.

HAIX AF System: Ankle Flex System refers to the functionality of a pull-on boot which enables it to adjust to different foot, ankle, and heel shapes providing optimal fit in the boot. Integrated flex-zones ensure high flexibility and prevents pressure points.

Protective Toe Cap: Anatomically formed and well-padded carbon protective toe cap to meet ASTM 2413-05 and CAN/CSA Z195-2009 standard for personal protection.

Protective Flexible Midsole: Flexible protective stainless steel, cast into the sole, to meet ASTM F2413-05 and CAN/CSA Z195-2009 standard for personal protection.

Upper Material: Waterproof leather, hydrophobic, and breathable.

Moisture Barrier: CROSSTECH footwear, 4 layers, waterproof and breathable, bacteria and chemical resistant, Bloodborne pathogen resistant. Highly abrasion resistant and softly padded with breathable foam.

Sole: Uniquely designed rubber Nitrile sole with a stable non-slipping sole edge for uneven terrain. The honeycomb tread pattern and yellow suction cups offer excellent traction on slick and wet surfaces. Ladder bar treads in the joint area for stability on ladder rungs. Oil and fuel resistant, non-chalky, and self cleaning.

Insole: Machine washable insert with excellent moisture absorption and quick drying qualities.

Footbed: Anatomically formed TEXON (fleece) absorbs moisture and supports ankle.

WEINBRENNER THOROGOOD FOOTWEAR

Since 1892 Weinbrenner Thorogood has been manufacturing boots and shoes for all types of jobs and working people. Thorogood boots and shoes specialize in work safety while maintaining a unique design and style. Weinbrenner Thorogood has developed world class boots and shoes for the police, fire departments, postal service, construction workers, and anyone else that requires safe and durable boots. Weinbrenner Thorogood boots and work shoes have a range of safety features including steel toes, an I-Met metatarsal guard, shock absorption padding, insulation and Vibram soles. When safety is a requirement Weinbrenner Thorogood boots are a top choice.

FEATURES OF WEINBRENNER THOROGOOD FOOTWEAR INCLUDE:

Safety toe, waterproof and chemical resistance (including resistance to Bloodborne Pathogens, slip resistance, cushioned shin guards, light-reflecting insteps and heel patches, flame and heat resistance outsoles, Vibram fire and ice slip resistant soles, non-heat conductive construction, as well as rubber and leather midsoles.

Weinbrenner Thorogood also offers the "Postal Approved" Adventurer and Women's Midtown models, which are a more stylish design, but still offers the same comfort and reliability as their other models and also features waterproof nylon/cement construction, with quick release buckles and straps.

NARKIT™ PRO FIRE DRUG MODULE (TS READY™)

The NARKIT™ Drug Module organizes all of your meds in a small compact filing system that securely fits within a TS-Ready™ module pack. Clear internal pouches provide quick identification of meds. Additional clear pockets provide storage for needles and syringes. Add this module to the OMNI™ BLS/ ALS Total System or the RECOVERY™ O2 Response or simply use it individually as a shoulder bag or carry-tote style. All sides of the bag that touch the ground are reinforced with TPE to ensure durability and to resist water. Optional shoulder strap is sold separately.

Dimensions: 6.25" x 10.25" x 3.75"

AIRWAY™ PRO FIRE INTUBATION TRI-FOLD MODULE (TS READY™)

The AIRWAY™ intubation tri-fold module securely organizes basic and advanced airway equipment and supplies. The roll-out tri-fold quickly allows access to all of your airway equipment while securely fitting within a TS-Ready™ module pack. Clear internal pockets provide quick identification of blades, intubation tubes, and other airway supplies. Add this module to the OMNI™ BLS/ ALS Total System or the RECOVERY™ O2 Response or simply use it individually as a shoulder bag or carry-tote style. All sides of the bag that touch the ground are reinforced with PVC to ensure durability and to resist water. Optional shoulder strap is sold separately.

Dimensions: 6.25" x 10.25" x 3.75"
